

Welcome to Wireless Technology Solutions

Residential Service
It's all about the BANDWIDTH with Internet @ the Speed of Light

Business Class
Bring your business to light. Navigate the World Wide Web with blazing speed. We're 100x faster than dialup. That means efficient business on the web. No more slow motion, choking uploads and downloads. Edit your website, swap content files, E-mail with ease. You'll be totally secure and fully supported with personalized, local service. Web hosting, design and IT consulting are also available with WTS. Save time and money.

Residential Service
Picture yourself surfing the World Wide Web with blazing speed. We're 100x faster than dialup. That means you have a fast and enjoyable internet experience. Save time shopping and swapping at E-bay and PayPal. Everything from E-mail to E-zines are a breeze on broadband. Surf fast, totally secure and fully supported with great customer service. It's quality, it's local, and it's yours for the taking!

Welcome to Wireless Technology Solutions
Internet at the Speed of Light

Wireless Broadband Internet Access

Wireless Technology Solutions' Wireless Broadband Internet Access service delivers high-speed Internet access to your home or office via high-frequency radio. The wireless network, based on Motorola's Canopy™ Wireless Broadband Platform, is completely owned and operated by Wireless Technology Solutions. This eliminates the complications and limitations associated with using wires, equipment and services provided by multiple companies. With prices starting at less than the cost of a telephone line and traditional dial-up account, Wireless Technology Solutions' Wireless Internet Access service makes high-speed Internet access affordable for everyone.

- High Speed Internet up to 100 Mbps
- Wired and Wireless Technology
- Co-Location of servers available
- One of Michigan's Finest Network Operation Centers
- Web Hosting Services
- Web Development
- Email and FTP Hosting Services
